- 256 Channels & 32 Zones
- Reverse Display Option
- Emergency Alarm

# TC-580

# **Main Features**

#### **Powerful Front Panel Programming**

Large front panel buttons facilitate easy programming of nearly all the radio parameters and functions without the need for additional equipment.

### 256 Channels & 32 Zones

This channel capacity makes the radio suitable for large radio system applications or systems where channel capacity can be used to increase and simplify unique calling requirements.

When larger numbers of channels are being used, they can be grouped into smaller blocks to allow for easier navigation.

# **Professional Two-Way Radio**

#### **Reverse Display Option**

This product supports a 180-degree reversal of the displayed content. In this way you can read the information in LCD easily without removing the radio from its holder. This facilitates your work and enhances your efficiency.

### **Emergency Alarm**

When encountering an emergency, you can use this function to sound an alarm and send a message to the control center for help.

### **DTMF Signalling & Caller Identification**

With DTMF signalling, versatile call functions are available such as caller ID and select call.
